

One of my favorite times of the year is “back to school”. I consider it a great honor to have the opportunity to work with the students, staff, parents and members of this community as we enter into our 2010-11 school year.

Our district, as many districts in the Commonwealth, faces financial challenges which will require significant time and attention. Unfortunately, the budget shortfall which we experienced last year resulted in the reduction of jobs for our district. However, we have high hopes as we enter this school year with great anticipation. We will continue to provide our students with a first class quality education.

Our caring community plays a vital role in the success our school district. Thank you for being involved. We are proud of our schools, our students and our caring and competent staff. I appreciate all that the school community does to help us as we strive to provide a quality education for our students.

It is my pleasure to serve as your Superintendent of Schools. If you have questions, concerns, or need additional information, please do not hesitate to contact your child’s school principal or call me at 508-876-0137.

Respectfully,

Kimberly B. Shaver-Hood
Superintendent of Schools
